Study Questions
Week 5

Topic for the Week:
Causes and Consequences of Population Change

Readings for the Week:

Study Questions:

(1) What approaches have been successful at controlling the AIDS epidemic?

(2) Explain the conditions in Africa that favor the AIDS epidemic. What specific factors have produced the African epidemic?

(3) Why has the AIDS epidemic persisted in Africa, while it has been controlled elsewhere? What role does education play in controlling the AIDS epidemic?

(4) Given the degree of the AIDS crisis in Africa, why is it not discussed publicly?

(5) What action must be taken to curb the African AIDS epidemic?
